HOW TO SELECT A DEMONSTRATION TOPIC
FOR YOUR
PUBLIC PRESENTATION

Selecting a topic for your presentation is the first step towards Public Presentation Day. It is important to select a topic you know well and enjoy talking about because you will practice it many times before the "official" day.

Here are a series of questions that will help you arrive at a topic.

1. What 4-H projects, hobbies, or activities have you completed, or are currently involved in?

2. Which of the above did you have the most fun with? Which did you do well?

3. Select the two that are your favorites and you like to talk about.

   A. B.

4. List the skills learned during the projects, hobbies, or activities that could be demonstrated. Some examples: How to…..use, prepare, make, measure, pin, tie, sew, put together, tune (an instrument), draw, do a specific skill in a sport

   A. B.

5. Now, pick either A or B. Be sure the topic has one main idea, and is not too big.
