

Happy New School Year Everyone!

I want to start this letter by letting you all know that I am the only in-school 4-H School Outreach Educator this year. I am fully vaccinated and will be masked and mindful of the CDC and school protocols for safe instruction if invited to your school.

As things can change at any time, we are scheduling programming for Sept -Dec now and will be putting out the new offerings in December for Jan-May of 2022. This will allow us to most efficiently schedule you while we work our way through the unknowns ahead. To help you the best way possible, we are offering our programs this year in either a virtual or in-person format.

Virtual Programs will be presented in the format designed last year.

- Hands-on program materials delivered to your school
- Scheduled virtual live Google Meet or Zoom with 4-H Outreach Educator, Julie Curren .
- Virtual programs will be offered on Mondays and Fridays.

Live in-school programming will be delivered, as it has historically been.

- I will come into the classroom with materials for an hour of hands-on programming.
- In-school programs will be offered on Tuesdays, Wednesdays and Thursdays.

Regards,

Julie Curren

## REGISTRATION TIPS

- Pool with as many teachers as possible when sending in your registration requests.
- No programs will be scheduled without a registration form.
- One teacher or aide should be the contact person for scheduling.
- To be in the right place at the right time, we need the names and email addresses of ALL of the teachers that will be receiving the programming.
- Program fee *must* be paid in cash or check (payable to: CCE of Saratoga) prior to the program unless other arrangements have been made.

### IN-PERSON *available T, W, Th*

- Schedule in-person programs in such a way that we are presenting the same program to multiple classes in your school in one trip.
- Please locate multiple programs in one common room or allow 15 minutes between programs for presenter to move.

### VIRTUAL *available M and F*

- Materials for virtual programs will be dropped off to schools before virtual live Zoom or Meet scheduled time.
- Remote classes will get materials in enough time to distribute to students.

Most programs will take roughly one hour.

Teachers are asked to remain with their students during program whether in-person or virtual.

Only \$35  
per class
